Type of assessment: RdSAP, existing dwelling
Total floor area: 110 m²

Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

Estimated energy costs of dwelling for 3 years: £ 3,525

Over 3 years you could save £ 831

Estimated energy costs of this home

	Current costs	Potential costs	Potential future savings
Lighting	£ 228 over 3 years	£ 174 over 3 years	
Heating	£ 3,021 over 3 years	£ 2,322 over 3 years	
Hot Water	£ 276 over 3 years	£ 198 over 3 years	
Totals	£ 3,525	£ 2,694	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

Top actions you can take to save money and make your home more efficient
