Energy performance certificate (EPC)			
32 Newton Way Woolsthorpe By Colsterworth GRANTHAM NG33 5NP	Energy rating	Valid until:	4 April 2034
		Certificate number:	0044-3036-9204-8264- 6200
Property type		Semi-detached ho	use
Total floor area		78 square metres	

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

Energy rating and score

This property's energy rating is E. It has the potential to be B.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Sandstone or limestone, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 100 mm loft insulation	Average
Roof	Pitched, insulated (assumed)	Good
Window	Fully double glazed	Average
Main heating	Boiler and radiators, oil	Average
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Average
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	Solid, no insulation (assumed)	N/A
Floor	Solid, insulated (assumed)	N/A
Secondary heating	Room heaters, dual fuel (mineral and wood)	N/A

Primary energy use

The primary energy use for this property per year is 276 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

• Stone walls present, not insulated

How this affects your energy bills

An average household would need to spend £1,451 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £642 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 12,237 kWh per year for heating
- 2,777 kWh per year for hot water

Impact on the envir	onment	This property produces	5.6 tonnes of CO2
This property's environmen It has the potential to be C.	, e	This property's potential production	1.9 tonnes of CO2
Properties get a rating from on how much carbon dioxid			
produce each year.		You could improve this properties of the semissions by making the set This will help to protect the	uggested changes.
Carbon emissions		This will help to protect the	environment.
An average household produces	6 tonnes of CO2	These ratings are based or average occupancy and en living at the property may u of energy.	ergy use. People

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£29
2. Internal or external wall insulation	£4,000 - £14,000	£411
3. Floor insulation (solid floor)	£4,000 - £6,000	£46
4. Heating controls (TRVs)	£350 - £450	£33
5. Condensing boiler	£2,200 - £3,000	£50
6. Solar water heating	£4,000 - £6,000	£72

Step	Typical installation cost	Typical yearly saving
7. Solar photovoltaic panels	£3,500 - £5,500	£562

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.
